IAAPA

INTERNATIONAL ASSOCIATION
OF AMUSEMENT PARKS AND
ATTRACTIONS

Dear IAAPA Member:

On 25 August 2017, you received an [IAAPA member alert](#) regarding a China Special Equipment Inspection and Research Institute ("CSEI") notice requiring inspection of all amusement rides and devices operating in China, and completion of forms by both the operators and the original manufacturers of rides operating in China, certifying ride safety by 31 August 2017.

In a further effort to make sure IAAPA members who need these forms have them, we are providing the following link to the [CSEI website](#), as well as the forms in [Chinese](#) and [English](#).

We want to remind you that IAAPA strongly urges members who have not completed the inspection and forms to make direct contact with CSEI as soon as possible. That contact is Mr. Frank Zheng – Assistant to Chief of amusement device section. His email address is yibpaicha@126.com.
